Air Protection Division

Subject: Benzene Waste Operations NESHAPS
Quarterly Report: July 1, 2018 through September 30, 2018
EPA ID No. PAR 000015768

Dear Mr. Rebarchak:

Monroe Energy, LLC, Trainer Refinery, submits this letter to fulfill the quarterly reporting requirements pursuant to 40 CFR Part 61, Subpart FF, §61.357(d).

During this reporting period, the Crude Oil Desalter Brine Treatment Unit (BTU) was monitored as required by 40 CFR §61.354(a)(1). Monthly samples were collected in July, August, and September. Measured benzene concentration in the BTU effluent remained less than 10 ppmw (10 mg/L) during the reporting period.

In addition to the above, all other required monitoring and inspections have been completed in accordance with the requirements of the aforementioned section.

Based on the information and belief formed after reasonable inquiry, I certify that the statements and information contained in this report are true, accurate, and complete.

If you have any questions about this report, please call Stephani Ski Szymanski, Environmental Engineer, at (610) 364-8073.

Sincerely,

A handwritten signature in black ink, appearing to read "Michael Capone".
